

To all the Members of Congress:

Some of the very first acts of the 114th Congress have been directed against the Consumer Financial Protection Bureau and the reforms of the Dodd Frank Act. We are alarmed by these attacks. This is not an agenda that America voted for.

We call on you to reject any changes that would weaken the CFPB's ability to protect millions of Americans from financial scams and predatory lenders, including alterations to the agency's leadership structure, funding, or regulatory authority. We urge you to take a strong stand for, not against, the cause of a fairer, more transparent and safer financial system.

Sincerely,

---

It's bad enough that no one that caused the last financial disaster was convicted and that many are still in places of power. Average Americans can't afford another bailout for the Super Rich. Tighten our financial security checks and balances now! Don't weaken them further.

This war against Protection for Americans, is an affront to HONESTY AND INTEGRITY! We need protections from the Scams and continuing Assault on citizens that congress seems to think is just part of business, --- as long as the political contributions funnel into their pockets. Do not support this kind of fraud ... call out your colleagues!

We need to stop Big Banks/Financial Institutions from their theft of the American dream. We CANNOT allow them to run riot and cause another collapse of our financial system. We NEED Dodd-Frank and the Consumer Financial Protection Bureau. It's time for Congress to use some common sense and do what is right for the American People who elected them, not the Big Money people. Stand with the People and they will stand with you.

There seems to be a faction destroying the soul of America, either you are a part of this faction or you are not, and if you are, then you like all the other's that are trying to destroy this country, will be booted out, we are watching you, and I know you think you got it going on when it comes to slowly destroying this country, but you really don't know the spirit of America, we will get rid of each and every one of you, ...

To the Wall St. 'whales': Fool me once [taxpayers bailing you out], shame on you. Fool me twice, shame on me! I refuse to bail them out again - if they actually commit the same deeds that put our Nation's financial system on the brink of disaster. Strengthening the CFPB would help prevent another NEED to ask the taxpayers to bail them out.
