**Q8**. [T] Now please listen to this description of the Wall Street Reform law that was passed after the financial crisis. In addition to requiring federal oversight of a larger range of financial companies, this law also prohibits banks from certain risky practices, and created the Consumer Financial Protection Bureau to fight against abusive financial practices that hurt consumers. It also bans taxpayer-funded bailouts of large banks and financial companies and, instead, sets up a system where investors rather than taxpayers bear the losses of bank failures. Please tell me whether, overall, you favor or oppose this law.

**Q9**. [**T\***] The Consumer Financial Protection Bureau, or CFPB, is the first federal agency whose focus is protecting consumers when they use mortgages, credit cards, bank accounts, and other financial products and services. Its mission includes preventing deceptive, unfair and abusive lending and collection practices by banks and other companies. ### [ROTATE STATEMENTS]

A.\_ [NEED RULES](Some/other people say) We have rules to guard against unsafe meat, appliances, and automobiles. The CFPB is there to provide similar rules for financial products. Just as it's against the rules to sell dangerous toys, it should be against the rules to sell dangerous loans and mortgages and have Wall Street interests put our savings and homes at financial risk. [61 WORDS]

B.\_ [UNACCOUNTABLE BUREAUCRACY](Some/other people say) The Consumer Financial Protection Bureau is another unaccountable, expensive, federal bureaucracy we don't need. The bureau imposes harsh regulation on small financial businesses lacking resources to manage intrusive government oversight and cuts access to credit. This costs jobs, and impedes economic recovery. The CFPB is yet another example of out of control, big federal government. [58 WORDS]

**Q11**. Now I'd like to read you a pair of statements about lawsuits against banks and other lenders. Of the two, please tell me which statement is closer to your own views, even if neither is exactly right.

### [ROTATE STATEMENTS]

A.\_[HOLD LENDERS ACCOUNTABLE] The Consumer Financial Protection Bureau, or CFPB, proposed a rule that guarantees your right to join with others in lawsuits against Big Banks and payday lenders that commit fraud and break the law. Without this rule, you would be forced to face powerful financial companies alone in secret proceedings, where a firm chosen by the bank determines your case. The rule would restore your right to stand with others to publicly expose Big Banks and hold them accountable for wrongdoing. [80 WORDS]

B.\_[ENCOURAGE FRIVOLOUS LAWSUITS] The proposed Consumer Financial Protection Bureau, or CFPB, rule to allow class actions against banks and other lenders will just lead to frivolous lawsuits filed by greedy trial lawyers that drive up consumer costs. The current system of arbitration by a neutral third party is fair, faster, and cheaper. If disputes go to court, customers may wait years for any money and the lawyers will take a big cut – raising bank fees and finance charges for everyone. [77 WORDS]

Now I'd like to ask you about payday loans, or short term small dollar loans.

Q12. [T] The Consumer Financial Protection Bureau is currently writing new rules for payday lending. One new requirement may be that, before issuing a loan, payday lenders would have to consider the borrower's current expenses and income, and only issue loans to those likely to be able to repay their loans. Currently there is no requirement that payday lenders make any effort to verify borrowers' ability to repay loans. Would you support or oppose this new rule that payday lenders be required to check a borrower's ability to repay a loan before lending the money, or aren't you sure?

Q13. [T] Now I am going to read two statements about payday lenders. Please listen to both and tell me which statement is closer to your own views, even if neither is exactly right.

### [ROTATE STATEMENTS]

A.\_ (Some/other people say) Payday lenders prey on the elderly on Social Security, on working families making minimum wage, on military families, and on single parents. In this economy, it's hard enough for families living paycheck to paycheck to make ends meet, without having to resort to 300 and 400 percent interest rate loans – that's just too much.

B. \_ Payday lenders are an important resource for those who can't get credit any other way. If people can't afford to pay the interest, they shouldn't borrow the money. As long as the terms of the loan are clearly posted, people can make their own decisions and not have the government controlling what they do with their own money.
